

Revolutionize your lifestyle with water.

Moisturize your skin,
make your hair shiny!

First manufacturer to use
a twin cartridge system!

MINERAL ION WATER
ANCESPA DX
Mineral Ion Water Activator

Patent/Trademark registration applied

ion water has a soothing effect on your skin and hair.

Diameter 9cm (Base diameter is 12cm).

It is a model having a slim body with a powerful design.

Standard accessories are a shower hose, water supply hose, hot water pipe, and massaging shower head of stainless steel, and is resistant to rust and dirt.

Ceramic cartridge

The cartridge has a layer of ceramic filling.

Ceramic balls of both Futamata Radium Hot spring and Chikutan are comfortably filled in a single cartridge.
(Refer the following for details)

Water purification cartridge

(Tourmaline Impregnated activated carbon fiber)

The characteristic of Tourmaline is to activate the water by using surface-active and negative-ion effect. Further, removes all the impurities such as organic compounds like Trihalomethane and fungus/dust from the tap water with the help of activated carbon fiber. It changes the tap water to good quality water and further enhances the efficiency of the ceramic balls.
(Varies depending on the volume / quality of water)

Neodymium magnet

This high quality powerful magnet can decompose the water molecules into smaller clusters to activate the water and change the water to slightly stimulated water. At the same time, it also helps water to better absorb minerals. The effect is semi permanent.

First manufacturer to use it a twin cartridge

Bringing together a high level of natural strengths!

Special Futamata Radium Onsen Ceramic Ball

Calcsinter taken from Futamata Radium Onsen (hot spring) in Hokkaido, which is famous for therapeutic baths. Calcsinter is made of deposited and hardened calcific lime and its main component is calcium carbonate containing radium. Therefore, this product increases your metabolism and gives you a relaxing onsen therapy experience with the calcium dissolved in the bathwater.

Chikutan Ceramic ball

Generates strong negative-ions that give a relaxing effect. Further, it cleans the air and prevents oxidation. Heating/thermal effect is obtained from far-infrared radiation.

Mineral ion water obtained from [Water purifying cartridge] + [Ceramic cartridge] protects your skin and hair and gives a relaxation effect.

Feels like being in Hot spring Resort everyday as mineral

Ensures removal of almost 100% of residual chlorine.

Chlorine disinfects the tap water. But there is also a threat that it may generate toxic substances like Trihalomethane, which is one of the carcinogens. Approximately 30%~ 90% of these toxic substances are absorbed by the body through the skin while taking a steam bath.

The research in America shows that "The quantity of toxic substances absorbed during 15 minute bath or shower is equivalent to drinking 1 liter of contaminated water".

Further, the temperature of 40°C, at which Chlorine is easily absorbed by the skin, is the most suitable water temperature for taking a bath!

"ANESPA-DX" makes hot water suitable for baths by completely removing residual Chlorine and bacteria from the tap water using a purification system of the cartridge.

"ANESPA-DX" contains a blend of natural Hot spring ingredients and minerals. It gives a unique feeling of enjoying Radium Hot spring, generated by mineral ion water, which enhances the relaxation effects.

The cartridge of "ANESPA-DX" contains only carefully selected ingredients that are good for the skin. An example would be, Tufa, which is taken from the Futamata Radium Hot spring of Hokkaido. You can enjoy the benefits of a Hot spring along with natural minerals, which gives the body a warm, comfortable feeling.

Moreover, the relaxation effect is remarkable because of MIC stone that generates activated, mildly alkaline water, which is good for the skin, the Power stone, which generates strong negative-ions and also because of the effect of Chikutan ceramic. Experience the relaxation while taking a bath.
